Deepening nights seek across heaven's vaults  
Now watch the scapes draped in Darkness  
And with the new wind came fright to the lands  
...Like a crying angel, devoured by poisonous clouds

...Under the brightening Pleiades gather  
To haunt the penetralia of light and life  
- An eternal journey in seasons of doom  
- So arrive on monumental Death  
...Under skies bleeding bloody juice  
- The hunger for empyrean drew hearses  
through the lands  
Under the signs of times yet to come  
Hear chanting cosmic songs

...And Pythonic powers reburn the everlasting wrath  
In every spirit so hungry for flesh and Death  
To structure the poison for heavens eyes  
- Thrusting a serpents venom nexus to our rise

A wolf-herde's journey sworn since  
superlansyne times  
Draws near as the genesis of the structure opens  
No palladium could ever bear the rage  
Which burns as an allpowerful element of Evil here

Possessed by wrath, Obsessed by Death  
New arts riding seasons of doom  
Upon blood and ashes...darkness and fire  
Under the flapping wings of ravens and vultures  
- prepare for Death
