I met myself at my own graveside

I remember looking tired

But somehow I convinced myself

That one of us had died
So I asked me then what I would have
If hell began right now
I said an old guitar and a bottle of wine

A book of verse and vow

CHORUS:
No more, no more

No more

No more, no more promises
A year went by and I lost my soul
Insanity crept in
And I will be the first to claim

I'd thought I found a friend

But he took more than offered
In four more years I looked up
And I lost me in the end
And I saw that I was him

CHORUS
Cold on the outside
Let me in
Then it never ends as friends
We start the year as lovers
One more hour
She took me down
I said I love you
But I lied
CHORUS
