We have entered these filthy lands  
And left the dreadful void  
To raise the towers of oblivion  
To consume and destroy

We come to destroy this people  
TO raise the tower of plague  
We bring forth your apocalypse  
The carnal way

We come to consume the souls of the living  
To raise the tower of wrath  
We bring the power of labour  
And thus their existence shall end

We come to infest their hearts  
To raise the tower of dusk  
We carry diseases and the manifest  
Of truth that we speak

By the maelstrom we come with chaos  
To raise the tower of demise  
We scornfully carry the sigil  
Our Baphomet is only death

In the end so bitter  
An oath shall be sworn  
The beast shall be unleashed  
And engage in the final battle

We came to lay Eden in ruins  
We brought an existence to fall  
We raised the black tower of oblivion  
We hail the void, the carnal monument
