Lately there seems to be some insecurities  
About the way I feel where I wanna be  
Boy you know it's with you  
No one can do the things you do to me

Never to be mistaking long as it's love we're making  
There'll be no hesitating you and me  
And it always will be and I won't leave your side  
'Cause you know

Love will be right here, be right here  
Right here, be right here  
No fear, have no fear  
No tears love is here

True love some don't believe in  
That's just what I'm giving  
I'm gonna keep it strong I'll be holding on to you  
No one can do me like you do it's true

Sure as the sun is shining our love will keep on climbing  
There's gonna be some rain gonna be some pain  
But as long as I know boy time will show  
Our love will grow and I know

Love will be right here, be right here  
Right here, be right here  
No fear, have no fear  
No tears love is here

Love will be right here, be right here  
Right here, be right here  
No fear, have no fear  
No tears love is here

Won't let go you should know this thing is real  
No questions, just listen to you heart and love will be  
right

Baby, what's the problem  
It's seems like we're having trouble  
You don't seem to understand

The life I lead ain't double

My heart belongs to you, and only you  
And you know it's true  
A phony imitation just won't do  
Relax your mind

I'm not the kind who runs around  
And wastes time, other fine brothers just don't  
compare  
I'll be there, I swear, far or near, have no fear  
I don't care, you can count on me, I'm right here

Right here, be right here  
Right here, be right here  
No fear, have no fear  
No tears love is here

Right here, be right here  
Right here, be right here  
No fear, have no fear  
No tears love is here

Right here, be right here  
Right here, be right here  
No fear, have no fear  
No tears love is here

Right here, be right here  
Right here, be right here  
No fear, have no fear
