From hip-hop to bebop to funk to fusion
from high life to reggae to rock and roll...

I stay cool under pressure when others might pop
Cherish tradition yet unorthodoxed, yeah
I'm ruled by the misconstrued god of the sky
Consider me wild but I always aim high
I'm unpredictable and so out of step
Ahead of my time and bent on intellect
I'm a sucka for anything breaking new ground
Turned on so much by adventurous sounds

This is the story of an aquarius rising
Ain't it suprising? How'd she get in your head
How'd she get in there?

I'm fascinated with the future unknown
Experimental when I get into my zone
Impatient with people who couldn't care less
I'm good friends with Karma and I rock amethysts

This is the story of an aquarius rising
Ain't it suprising? How'd she get in your head
How'd she get in there?
This is the story of an aquarius rising
Ain't it suprising? How'd she get in your head
How'd she get in there?

sy goes from hip-hop to bebop to funk to fusion
nicolay goes from high life to reggae to rock and roll

roll
