This is old
This is new
This is borrowed
This is blue
This is married
Then divorced
This will be resolved in court
This is random
This I know
This is what tomorrow holds
This is red, black and green
And everything in between
This is ebb
This is flow
This is, this is like Whoa
This is hate
This is love
This is faith in Her above
This is sober
This is drunk
This is funky like a skunk
This is A
This is B
This is blind, can't you C?

This is your brain on drugs (8x)
Any question, any question

Chorus:
Conflict, opposites
Psychological politics
Tryin' to live without regrets
Tryin' to make us all

This is rock
This is roll
This ain't neo
This is soul
This is captured
This is free
This is a gift to you from me
This is open

This is shut
This is askin' what the fuck
This is crazy
This is sane
Can they be one in the same?
This is legal
It's a crime
This is gonna do hard time
This is funny
This is sad
This is making me feel bad
This is fly
This is fun
This is really on the one
This is retro
This is now
This is gonna show you how
This is danger
This is safe
This is caution out of place
This is black
This is white
This is wrong but feels so right
This is scary
This is brave
This will make us misbehave
This is wild
This is tame
This is completely humane
This is quiet
This is loud
This is me, so black and proud
This is quiet
This is loud
This is me, so black and proud

This is your brain on drugs (6x)

(Chorus 3x)

This is your brain on drugs (2x)

(Chorus 3x)
