A mass of emptied minds, docil imitators, we never try  
to see the truth  
Corrupted to the core, we are breeding in the vaccum,  
our words are useless noise  
Automaton chained to common patterns, so inane  
Fuck now! adaptable, manipulated, you consume and  
then, you're erased  
Shit! submit to system pressure, programmed to never  
deviate

We 've learned to hide, to blame, to follow, to never  
askin'why  
We only want to be quiet, to be safe... we're blind

Could we choose to live, could we choose to exist?  
Trapped into descent, just waiting to revive

We've locked our soul, so close to the other, but so far  
We remain so cold inside, running in reverse, in  
destruction we smile

[Repeat third verse]

Plunged in delusion, as a puppet marching to the  
sound of lies  
In cruelty we collide, slave to delusion, we define this  
perfect lake of courage  
Reflecting in our eyes, all things now retaken, all things  
we've forgotten  
(All things we've forgotten)

[Repeat second verse]

Control, it's what it's all about: trust the pigs and eat  
their shit  
We don't give about truth, we're just leaving into dream  
of perfect norm  
Without recognition for misery

Could we choose to live, could we choose to exist?  
Trapped into descent, so down, just waiting to revive  
again

Could we choose to live, could we choose to exist?  
Trapped into descent, so down, just waiting to revive  
again
