"Posthuman Manifesto"

Visit "[Posthuman Manifesto](#)" on MotoLyrics.com

Give up your old skin, all the decaying tissue, this
vessel of misery
Restructure your ego and filter the fluids of your body
machinery
This obsolete frame starts to disintegrate now,
conform to the current trend
Choose the latest fabric for improved content
You want it, you need it, don't wait

Let's disgorge the poison of retrogression
And reconstruct your carnal remains

Embrace the figure we've designed
Become a flawless model and behold you feel quite
amplified
Embrace the figure we've designed
Become a flawless model, a modern delight to free
your mind

Slow death product for sale,
we interrupt the decline with customized medicine
Apply for the grail of our technology: the suppression
of suffering
Pick a prototype, all different yet equal in the basic
potency
The embodiment of a trivial dream
You want it, you need it, don't wait

This is time to replace your past self
And be cleansed of your common defects

Get more strength to enjoy your life
With no fear of being left behind
To never catch a glimpse of content in their eyes
Or be brand as a castaway

Desecrate your very soul
And become part of the display

Embrace the figure we've designed
Become a flawless model and behold you feel quite

amplified
Embrace the figure we've designed
Become a flawless model, a modern delight to free
your mind
