Danny found these vile creatures
In the deep place of the room
They said we don't have any features
We haven't even got bones
Danny turned them into dishes
It didn't take too long
'Coz they were all like fishes
They didn't even got bones

(chorus)

Where have you been?
I forgot anyway
What have you seen today?

He's going down every summer
He's making a trip underground
Hurry up to share with his brother
All the secrets he found
Never afraid of getting further
Danny discovered a town
He wanted to talk with the Queen mother
Now he's wearing a crown

(repeat chorus)
