You don't know me yet.
You only know so little.
I don't know that much, I just want to stay by your side,
holding your hand.

The face reflected in your eyes is expressing it's
feelings.
It's not too late (just give me a little try)

High high we've just gotta try like this
I don't need another path to travel
Your kiss that I've wanted for so long
Is the beginning of my love.

There's no way that you don't know you're the
Person always spinning in my heart.
Don't go too far, just wait a moment so I can approach
you.

Why does everything always come so suddenly like
fate?
(Just give me a little try)

High high waiting takes so long
And I know that I'm you're only one
I close my eyes and kiss
Give me a little try
Just give me a little try
Every turn with me

Take my hand so that we can be together forever, now
that you've come to my side.

High high we've just gotta try like this
And I don't need another path to travel
Your kiss that I've wanted for so long
Is the beginning of my love.

Just give me a little try
