

## Sylosis "Blackest Skyline"

Visit "[Blackest Skyline](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Hordes thrown into chaos with nowhere to be safe  
You'll push aside your fellow man in hope of your  
escape  
There is no light to see beyond the blackest skyline  
First the sound approaches, then the lightning strikes  
Lie to yourself to mask the fears of the unknown  
Punish yourself until you've nowhere to call home  
Ans somewhere inside lies a shadow of the creature  
you hide  
The end is now progress, a fatal last mistake  
You left behind your fellow man and now have no  
escape  
There is no light to see beyond the blackest skyline  
First the sound approaches, then the lightning strikes  
Lie to yourself and never see the thing you are  
Punish yourself until your failure is a scar  
And somewhere inside lies the creature you hide  
Destroying yourselves to purify  
To rebuild we must first destroy  
Now the earth has no foundation  
Bodies tumble into the black abyss  
They hear the sound of wings  
Teeth are gnashing... God?  
There is no light to see beyond the blackest skyline  
Foundations shake beneath the shallows  
As the Gods rain down on us  
And somewhere inside lies a shadow of the creature  
you hide  
Destroying yourselves to purify
