Fall into this nightmare we've built  
Ripping ourselves from within  
With a desperate cry  
With the taste of sweat on my tongue

(Blind!)  
Blind from this state that we're in  
Blinded like moths to the flame  
With a desperate cry  
With the taste of fears we create

Failure!

Oh! [Solo]

Learn!  
Driven by what we achieve  
Draining ourselves from within  
And a desperate cry  
From the promise of starting again

Die!  
Broken from where we have failed  
Never returning again  
With a desperate cry  
With the sense of a life thrown away

In this fire we burn  
Back to the light we return

I hear the dying screams  
I sense the end is near  
With a final exhalation  
My soul is reborn in fire

This fire will burn  
In this fire we'll burn  
A sense of life is thrown away  
We learn to fall and run away

A sense of life is thrown away

In this fire we'll burn

In this fire we burn  
Back to the light we return
