Submit to the truth and try to  
Break free from this hell that surrounds me  
Daylight engulfed and consumed  
By a vile black swarm  
I've seen all that I know disappear  
Fleeting away on the wind  
Ripped from my grasp with no words passed  
You gave me no warning  
Gave us no warning

Stay within your comfort  
Confined to the shadows

For you will always fear what's out there  
Fear the world until you're gone

Pulling you down blindfolded and bound  
Dragged to the depths of the core  
Forced into eternal majesty  
If only you knew what darkness ascends  
Coming to take you away  
The years spent in denial would not mean a thing  
Given no warning  
Given no warning

For you will always fear what's out there  
Fear the world until you're gone

You will come to realise you were never truly alive

If you deny your existence  
Life will pull you back in  
The faster you fall the deeper you sink  
The the quicker you'll leave this all behind

Your cross to bear is a burden you won't realise  
So see this as a blessing in disguise

Let the blackened smoke fill your lungs  
Breath it in  
One day this will bury me as I buried you

Fear the world  
Fear this world
