Screech the ghouls of deepest wynter  
The wolves howl as I prowl the perimeter  
Cursed with Negative maegen wounds  
We search our servile souls.

Tears rain like blood from Thunor's sky  
(Leave) grief bleached bones behind.

Smash through wooden shield like snow  
Our swords will cut with Woden's words  
Weep and ask your god for help  
Upon your virgin lips.

Tears rain like blood from Thunor's sky  
(Leave) grief bleached bones behind.

Woden... Thunor... Tiu... Freo

Hail them... Wassail!

We're here, your there,  
In here, in there,  
Come here, we're there  
In here, we're there.

(Heed the) screech of deepest wynter.
