Love Though The Night

How could I try to forget you  
If I can't stop loving you...  
I've been waiting for so long darling  
And I couldn't leave you now

Our lives are so together  
And for you we are just friends...  
I can tell you my devotion  
'Cause I'm begging for your love

My life is all yours,  
My love is all yours,  
My life's all yours,  
The love's all yours,  
That I just can't do it now...

Baby you must be mine tonight  
I can't wait you anymore  
'Cause my heart is crying hard for you  
We must make love all the night  
In my life, I just loved one time  
And I'm sure it must be you  
And now, I will invite you to...

Make love through the night...
