Mother says to stay right-
Mother says to stay right here.
Mother says to stay right-
Mother says to stay right here.

She's been standing in my place.
Let's go out and slap her face.
She's been sitting in my chair.
Let's go out and pull her hair.

Yes you scream and you shout
Girl you'll never get out
Girl you never will see what's new.

Yes you scream and you shout
Girl you'll never get out
Girl you never will see what's new.

Mother says to stay right here.
(Mother says to stay right here.)
Mother says to stay right here.
Mother says to stay right here.
(Mother says to stay right- Mother says to stay right
here.)
Right here.

Mother says to stay right here.
(Mother says to stay right here.)
Mother says to stay right here.
Mother says to stay right here.
(Mother says to stay right- Mother says to stay right
here.)
Right here.

She's been sleeping in my bed.
Let's go out and shoot her dead.
She's been dancing in my dress.
Let's go out and make a mess.

Yes you scream and you shout
Girl you'll never get out

Girl you never will see what's new. With You...

The Irediscant eyes of the seahorse cries
Treasures she loves others despise
A shooting star shant fall ver far
Dim fire flies held in glass jars.

April showers bring May flowers
Dazzling dust, tossed in wind gusts.
The trapdoor is open, the window half closed.
The tapestry curtain vivaciously glows.

Irediscant eyes of the seahorse cries
Treasures she loves others despise
A shooting star shant fall ver far
Dim fire flies held in glass jars.

Mother says to stay right here.
(Mother says to stay right here.)
Mother says to stay right here.
Mother says to stay right here.
(Mother says to stay right-
Mother says to stay right here.)
Right here.

Mother says to stay right here.
(Mother says to stay right here.)
Mother says to stay right here.
Mother says to stay right here.
(Mother says to stay right-
Mother says to stay right here.)
Right here.

T-t-t-tell me what's new with you.
Yeah, you're that girl.
Tell me what's new with you.
Yeah you're that girl.

Is it her or is it me?
