

Symphony In Peril

"Nightshift"

only at nighttime i see you
in darkness i feel you
a bride by my side
i'm inside many brides
sometimes i wonder
what goes on in your mind, tho its silent and kind
unlike the others

other mothers kill the others
but the others kill their mothers
i'm going out of my mind cause
i'm out of my mind with you
in heaven and hell with you
i'm out of my mind

nightshift, sisters
await their nightly visitors
no they don't bother me
no they don't bother me

come on inside and submit to my feet
with a mute dissection
looking so sweet to me
please come to me
accomplish my call, love
kissing, not kissing
a happy-go-lucky child always dressed in black

he'll come to you
he'll come to you
he'll come to you
he'll come
