Slowly she moves underground
For we know it's where she's found
Quickly she's moving up
Seed of need it will erupt

Something is happening underneath the ground
For she's been waiting to bloom
Thinking and wondering
Of her climb up to the sun
For she's been waiting to bloom
Waiting for her

Thinking now she can never give in
Dizzy now from the earth as it spins
Forcing her
She must give up
Seed of need it will erupt

Waking so sweetly
The earth she has outgrown
For she's been waiting to bloom
Stretching, she's growing
On her climb up to the sun
For she's been waiting to bloom
Waiting for her

Let me grow
The soil it strangles me
Let me grow
The soil it strangles me

Something is happening underneath the ground
For she's been waiting to bloom
Thinking and wondering
Of her climb up to the sun
For she's been waiting to bloom
Waiting to bloom
