Waiting under ground  
So dark it seems  
I can't stop breathing  
Waiting under ground  
My eyes are closed  
But my heart's still beating  
My whole sleeping seeds is straight  
To the stream beneath excuses  
Unexplained into the day  
The more I quest  
I'm only waiting under ground  
So dark it seems  
I cant stop grieving  
Waiting under ground  
My mind is blind  
My hearts still steaming  
Its a fast plane to this drag  
I think I shaped a million faces  
Sonically you re in my head  
The more I stick you re fading away

I don't expect a perfect grave  
Crackin' up concrete illusions  
Sonically you re here to stay  
The more I scream  
The more Im waiting under ground  
So dark it seems  
But I cant stop breathing  
Waiting under ground  
My eyes are closed  
But my heart is still beating  
Im waiting for you  
Im waiting for you...
