### "One More Time For Love"

Visit "[One More Time For Love](#)" on [MotoLyrics.com](#)

So you say you think  
You're through with love  
And there's no hope  
In our future love

Let me share this  
Feeling with you, love  
Take my hand

If we close our eyes  
And just forget the past  
And believe that we can make  
This new love last

Then our hearts  
Will know the beauty  
Of true love again

One more time for love  
Let me hear that song again  
One more time for love  
One more time for love  
Sing it again

Lovers love and lose  
And feel the burning pain  
With an attitude that  
They'll never love again

But a change of heart  
Will make the weather change  
To soothing rain, whoa, oh

One more time for love  
Let me hear that song again  
One more time for love  
Mmm, love me one more time  
One more time for love  
Sing it again

Oh, oh, baby

Lovers love and lose  
And feel the burning pain  
With an attitude that  
They'll never wanna love again

But a change of heart  
Will make the weather change  
To soothing rain, whoa, oh

One more time for love  
Let me hear that song again  
One more time for love  
One more time for love  
Sing it again

Whoa, oh, oh  
One more time for love

One more time for love  
Let me hear that song again  
One more time for love  
Mmm, just love me one more time  
One more time for love  
Sing it again
