It's hard to speak, the words come slow
I want to stay, just ask me
You're much too wise to not have known
I'll stay with you, please ask

Girl, I try to ask, but I lost my nerve
How could I know I only had to ask
We don't need to be alone
Here's my life, make it your own
I'm asking now, please stay

The world out there is often cold
So when I shake, please hold me
I'll be there for you, help you through the worst
Believe me, girl, you'll never have to ask

And when (and when) we're one (we're one)
If I get afraid (If you get afraid)
And start to run (and start to run)
Please (please) start me
You could never get that far
For I need you where you are
Each time you try to get away

I'll stay...
Please stay (please stay)
Please stay... (Please stay...)

[Interlude]

Hey-hey-hey-hey-hey, hey, hey

We don't need to be alone
Here's my life, make it your own
I'm asking you, girl (yeah)
Please stay (Oh...)
Why don't you stay?

We don't need to be alone
Here's my life, make it your own
I'm afraid (Don't be afraid)

But I wanna stay (I'm asking you)
I wanna stay... hey, hey, yeah

We don't need to be alone
Here's my life, make it your own
I'm asking you, girl (hey-ey...)
Please stay
Why don't you stay?
