Stare in the eyes of your enemy
Spit at the face you've come to hate
Let go of all your fear
Listen to yourself for once
Focus on the dreams you have
Overcome and dominate
Open up your eyes
And see the only life you live
I hear the fear in your breath
Your so scared to take control
Just so attached to something else
You can't let go
Now it's time
To throw it all away
Now it's time
To put heart in yourself
Now it's time
To push it all away
Now it's time
To leave it all behind
Your still killing yourself it's time, it's time [REPEATED]
(you still kill yourself)
Take a look at who you are
And where you want to be
Don't suffocate yourself
And live in your own misery
Now it's time
To throw it all away
Now it's time
To put heart in yourself
Now it's time
To push it all away
Now it's time
To leave it all behind
Your still killing yourself it's time, it's time
Your still killing yourself it's time, it's time
Your still killing yourself it's time, it's time
Your still killing yourself it's time, it's time
