Come and, come and get it
Come and, come and get it
Come and, come and get it
Tell me boy
Come and get this love
Come and take your love
Come and get my stuff

I've been hoping to find your
Story so romantic
And now is the time
For you to come and get my love

*Come and come and get it
Come and get (this stuff) (my love)
Come and come and get it
I've been waiting for you
Come and come and get it
Come and get (my love) (this stuff)
Come and come and get it

You've been wasting your time
Just broken inside needing just to
Look and you'll find
I'm what you need daddy oh

(Repeat *)

Why don't you just give me the sign
'Cause I've been anticipating
The look in your eyes
Said there's good inside my love

(Repeat *)

Let me hear you clap your hands, I feel all right.
