I was one. I was whole.
Now I'm falling.
Burst my soul.
Into pieces.
Great divorce.
Need to find now.
My fires source.
Gotta find now gotta burst - feel me feel me taste my
thirst.
Overloading every vein - simply scare away the pain...
Never let go.
Just let me flow.
Sail fly run hide
Sail out of time
Fly through starlight.
Deep black sky.
Sail forever never die.

Wasted ours.
Filled with sleep.
I'm free tomorrow.
But back I leap.
Into the dark.
With whispered hope.
Let's find forgiveness.
Then cut the rope.
Gotta find now gotta burst - feel me taste me waste my
thirst.
Overloading every vein - simply scare away the pain...
Never let go.
Just let me flow.
Sail fly run hide
Sail out of time
Fly through starlight.
Deep black sky.
Sail forever never die.
