Let me desecrate you child
Let me penetrate your world
Let me penetrate your mind
Let me desecrate you
Don't let me desecrate you my child
Don't let me penetrate your world
And feel the warmness of your soul away
Don't let me penetrate you my child
Don't let me desecrate your world
And feel the warmness of your soul away
I divide you
With space provide you
Your soul defy you to love
I divide you with your faith
I realized you with your soul
I defy you into love
Don't let me desecrate you my child
Don't let me penetrate your world
And feel the warmness of your soul away
Don't let me penetrate you my child
Don't let me desecrate your world
And feel the warmness of your soul away
I divide you
With space provide you
Your soul defy you to love
I divide you with your faith
I realized you with your soul
I defy you into love

Little girl bled
Sheets of the night
Bullet connects at the price of her crime

I divide you
With space provide you
Your soul defy you to love
I divide you with your faith
I realized you with your soul
I defy you into love x2
