"Get Out"

What if there's no more poor to help?
Another God is what I am.
What if I have forgotten how?
Come out houses and get out now.
Get out right now!

There's something shook up in me.
There's something I don't wanna see.
But is it growin' in me? CLUE

It is the hardest thing to do.
You watch it grow on top of you.
I see you're just like everyone. NEVER

There's something shook up in me.
There's something I don't wanna see.
But it it growin' in me?
There's something I don't wanna see.

I don't speak that language any more.
My blood is not that color any more.
My blood is not that same way any more.
I cannot deny it any more. UGH

There's something shook up in me.
There's something I don't wanna see.
But is it growin' in me?
There's something I don't wanna see.

There's something shook up in me.
There's something I don't wanna see.
But is it growin' in me? CLUE
[Thanks]
