Spine, line, the fetus is mine  
Don't forget me, don't forget me  
Don't forget me, don't forget revolt

Revolt, revolution, counter revolution  
Counter, counter, revolution  
The mind, the mind, the mind that feeds the blind  
And helps you find and makes you bind the game  
Is on, the game is on, the game is on  
The game is on, the game is on

The spine, a line, the fetus is mine  
The spine, a line, the fetus is mine  
The spine, a line, the fetus is mine  
The spine, a line, the fetus is mine

A life, denied, comatosis, comatosis  
Comatosis, comment on my word  
Define my words, define my words  
Define my words, define my words

Define the line, the line  
Revolution, counter revolution  
Counter, counter revolution  
Solution, disillusioned by pollution  
Resolution starting with the

Spine, a line, the fetus is mine  
The spine, a line, the fetus is mine  
The spine, a line, the fetus is mine  
The spine, a line, the fetus is mine  
The spine, a line, the fetus is mine

The spine, a line, the fetus is mine  
The spine, a line, the fetus is mine
