Dark is the light
The man you fight
With all your prayers, incantations
Runnin' away
A trivial day
Of judgement and deliverance
To whom was sold
This bounty soul
A Gentile or a priest?
Who victored over
The Seljuks
When the holy land was taken

We will fight the heathens
We will fight the heathens
We will fight the heathens
We will fight the heathens

Was it the riches, of the land?
Powers of bright darkness
That led the noble, to the east
To fight the heathens

We will fight the heathens
We will fight the heathens
We will fight the heathens
We will fight the heathens

Yeah, we will fight the heathens
We will fight the heathens
Yeah, we will fight the heathens
We will fight the heathens
We must call upon our bright darkness
Beliefs, they're the bullets of the wicked
One was written on the sword
For you must enter a room to destroy it
Destroy it, destroy it

No international security
No call of the righteous man
Needs a reason to kill a man
History teaches us so

The reason he must attain
Must be approved by his God
His child, partisan brother of war

Of war, we don't speak anymore
Of war, we don't speak anymore
Of war, we don't speak anymore
Of war, we don't speak anymore

We will fight the heathens
We will fight the heathens
We will fight the heathens
We will fight the heathens

Yeah, we will fight the heathens
We will fight the heathens
Yeah, we will fight the heathens
We will fight the heathens
