Changes, visible changes  
Sky looking so forlorn  
It looks like the world's been born  
On one more rainy day

Trying to see the sunlight  
My heart's crying out loud  
I try to see through the clouds  
On one more rainy day

One more rainy day  
Once again my mind is grey  
This is what a rainy day can do  
One more rainy day  
One more rainy day

Sun starts shining on through  
New day a day with you  
It's strange what sun can do  
On one more rainy day

One more rainy day  
Once again my mind is grey  
This is what a rainy day can do  
One more rainy day  
One more rainy day
