I told you once about a place that I had accidentally  
stumbled upon  
Can you imagine how it feels to find somewhere that  
you can do no wrong  
But it's alright you're safe in my hands

I'll meet you in the sky tonight and we will trace some  
undiscovered stars  
We'll go beyond the universe beyond all  
understanding, hey, it's not that far  
But it's alright I feel safe in your hands

I can't stand living this way  
Getting by from day to day  
I'm drinking from your loving cup  
I told you things were looking cup  
Oh oh oh so good  
Oh it feels so good

We're all the same but then again we're all quite  
different in our own peculiar ways  
We've come so far and now we're going through  
another phase  
But it's alright  
We made it so far

I can't stand living this way  
Getting by from day to day  
I'm drinking from your loving cup  
Told you things were looking cup

As we all know it's hard to breathe when something  
spiritual has taken place  
We don't know why we don't know how we've been  
transformed into a state of grace  
But it's alright  
We walk in our sleep  
Yes it's alright  
This is rapture of the deep
