The sleep creeps in 20 hour waves  
And bit by bit...  
The bath  
water  
washes  
me  
away

...but it's the best line I've ever waited in  
I can still hear voices and a bottle spin  
Yes, oh yes, you are gorgeous  
A freight train barrels towards us

I'd hate to leave without you...  
"Creature, meet the world."

without faith, it will beat you down

without faith, it will beat you down  
without faith, it will beat you down  
without faith, it will beat you down"

Come back next fall, reborn, with your ugly skin shorn  
"If you can forget me, then I'll disappear forever."

I need to be a detrimental loss  
My muscle is an instrumental cost  
the metal tells me so  
my mettle fails me so
