Question and answer:

What is a rapper doin when he starts at hardcore, but
can't sell
enough records to remain in the record buisness?

Answer:

He goes pop.....

This answer is not set up to diss anybody who starts at
pop, or
for the rapper's who started at hardcore, and now
makin weak
ass dance music, cause they couldn't stay down wit the
hardcore.

I just got a question for you:

How does it feel to wake up every mornin, and look in
the mirror,
and realize, that you're a fuckin ho?
