Sex I the morning sex at night sex in the afternoon's  
alright

Ain't a man on earth that can stay alive

Without a .....sex drive

Sex (x4)

I was in a contest to rock the world

First prize was a virgin young girl

For four days I was up on the mic

All sucker MC's were on the bite

Bittin' my rhymes stealin' my style

I rocked so hard it wasn't true

I won the virgin girl and her MAMA too

Sex (x4)

When I'm upon the microphone

All the fly young ladies want a take me home

When the party's over,take me to their house

Throw me in the bed,know what we're talkin' about?

Then they say,"Ice-T you are the best

I love your eyes

Your things,your chest

You put all my lovers to shame

I can't remember my boyfriend's name

You made me feel all hot and wet

The way you move I can't forget

I came, I came, I came again it felt so good I told my friends

You can have my cars, my jewels, my wealth

I love you more than I love myself

After tonight fulfilled I'll be

No hundred men could match ICE-T

Sex (x4)

Then she turn out the lights, throw back the sheets

And then our two hot bodies meet

And all at once she felt the thrill

The caress of the best, the Ice-T chill

Start with her tongue upon the back of my leg

She didn't stop till I hollered screamed and begged

Then she rolled me over, took me to the stage

Like in the nasty book where you tore out the page

Sex (x4)

I put it in their blouse

In their brain their little panties that their boyfriend saw

I put it in their mini skirt and up their thigh

Deep, deep girls, I wanna make you cry

I move it in and out, know what I'm talkin' about

Then around your neck until you show respect

Then on your cheek until I reach my peak

Then in your mouth girl,no joke,I'll take it out

Don't want to see you choke

I'll run it down your back,might cause a heart attack

I'll put it in your butt until I get enough

And then I'll take it out and put it in my pants

'Cause I fuck with the beat,the only way to dance

Sex (x4)
