For Future Generations
The signs are obvious, they are everywhere

All that we hear about is the
gloom and despair

Too many would be prophets saying
"Its the end of
it all"

Cause mother earth cant take much more
The hammers gonna
fall

So nature has its needs, thats a lesson learned
But it

appears to me there are greater concerns

Cause we can save the planet

Thinkin we will somehow survive

But father time is calling us

To

save somebodys life

Chorus:

So I wont bend and I wont
break

I wont water down my faith

I wont compromise in a world of
desperation

What has been I cannot change

But for tomorrow and

today

I must be a light for future generations

If we could

find a way to preserve our faith

So those who follow us

See the

price that was paid

Then maybe when they question

What its gonna

take to survive

Theyll find the strength to carry on

In what we

leave behind

So I wont bend and I wont break
I wont water
down my faith
I wont compromise in a world of desperation
What has
been I cannot change
But for tomorrow and today
I must be a light
for future generations

Lookin in the eyes of the children
Knowing that tomorrow is at stake
When the choice is up to them
Will they have the strength to say

We wont bend and we wont
break
we wont water down our faith
We wont compromise in a world of
desperation
What has been we cannot change
But for tomorrow and
today
We must be a light for future generations

We wont bend
and we wont break
we wont water down our faith
We wont compromise in
a world of desperation
What has been we cannot change
But for
tomorrow and today
We must be a light for future generations
