

## 4 Him "Future Generation"

The signs are obvious, they are everywhere  
All that we hear about is the gloom and despair  
Too many would be prophets saying  
"Its the end of it all"  
Because mother earth can't take much more  
The hammers going to fall

So nature has its needs, that's a lesson learned  
But it appears to me, there are greater concerns  
Because we can't save the planet  
Thinking we will somehow survive  
But father time is calling us  
To save somebody's life

So I won't bend and I won't break  
I won't water down my faith  
I won't compromise in a world of desperation  
What has been I can not change  
For tomorrow and today  
I must be a light for future generations

If we could find a way to preserve our faith  
So those who follow us  
See the price that was paid  
Then maybe when they question  
What its going to take to survive  
They'll find the strength to carry on  
In what we leave behind

So I won't bend and I won't break  
I won't water down my faith  
I won't compromise in a world of desperation  
What has been I can not change  
For tomorrow and today  
I must be a light for future generations

Looking in the eyes of the children  
Knowing that tomorrow is at stake  
When the choice is up to them  
Will they have the strength to say

We won't bend and we won't break

we won't water down our faith  
We won't compromise in a world of desperation  
What has been we can not change  
For tomorrow and today  
We must be a light for future generations
