Time waits for no one  
It's water thru our hands  
Minutes turn the hands of time  
They're waves upon the sand  
I can't hold on living without you  
When all hope is gone  
Only you remain the same

(chorus)  
Roses always fade  
The sweetest summers pass away  
This thing I know  
God's love will stay forever  
All things have to end  
But with the spring life starts again  
This thing I know  
God's love will stay forever  
Thinking back on years gone by  
You held me by my hand  
The wonder in a child's eyes  
helps me understand  
That life will go on with each new beginning  
As it passes on  
Only Your love stays the same

(chorus)  
Never ending love  
Never changing  
Only Your love stays the same
