RKELLY:

The way we roll up it aint hard to tell
Ladies, its deep side and your boy kelz
Got the swagger on with the jury swinging
At them chicks be fightin cuz the boys be singing

Oh girl don't you see I'm on a mission
Tryna see that ass assume the position
Baby im a 12
Know you wanna ride
Just relax and get ready for a good time
When your in my bedroom just get naked girl
In clothes that are in fashion
Let me release your tension
lickin on your neck
Here I got you ready for some action
Now she standing ovetop of me
Dancing all freaky
Talkin bout this what you wanna see
Want the secret to my vickys
Hopin that she'd show me
Girl you see me getting horny so

Lets make love
Lets make love
Lets make love right now
Till the sweat starts pouring
Till when till 6 in the morning
Lets make love
Lets make love
Lets make love right now
Keep givin you more and
Till when till 6 in the morning

36 double D (oo wee)
Not to mention that she 5 foot 3 (foot 3)
Still you do what you got for me baby
I cant wait to put your ass to sleep (to sleep)
I can hear you when you breathin
you wanna get closer
Girl the night aint over

I believe that you get what you work for
So I'm gonna turn you out till you want more
You'll be wrapping your legs around me (round me)
Squeezing my body tightly (tightly)
Wont be able to stop the shaking (shaking)
All because of the love we're making so

Lets make love
Lets make love
Lets make love right now
Till the sweat starts pouring
Till when till 6 in the morning
Lets make love
Lets make love
Lets make love right now
Keep givin you more and
Till when till 6 in the morning

Don't waste time
All the love that you ask for
Can start tonight
girl I can be all that you've ever dreamed
And make you fall right back in love with me
Girl you no what it is so baby can it be
