I wish I can grow some wings  
And get up out of this situation  
I do it with no hesitation, yeah  
I wish I can know those things  
That everybody else knows  
It's my decision, don't need permission to

[Chorus]  
Fly away (way), fly away (way)  
I go through this everyday  
So why fly away (way)  
I can fly away (way), fly away (way)  
No one listen to what I say  
So why fly away

Somebody told me (told me), today was my day (day)  
They see me on the big screen and they see me on the  
stage  
And it must be true, 'Cause, here I am, here I am baby  
I wanna thank you

[Chorus]  
Let me fly away (way)  
Fly away (way), fly away (way)  
And I go through this everyday  
So why fly away (way)  
I can fly away (way), fly away (way)

I go through this everyday  
So why fly away (way)  
And I go through this everyday  
So why fly away, fly away yeah  
Fly way yeah  
No one listen to what I say  
So why fly away (way) [Repeat]
