Yay, yeah
It's goin' digital
Yay, yeah, yeah, yeah
It's goin' digital, yeah

See tonight it's goin' digital, really though
Really everybody in the club 'bout to feel me though
I came alone 'cause I'm takin' somethin' back with me,
yeah

I left the doors up on the Lamborghini
So they can see me, see me everybody in the club
Know I got fettuccine, I can't leave home
Without a couple stacks on me, yeah

Now I got the Gucci on the shoes
Gucci knapsack, ice around my neck
How pimpin' is that? Oh c'mon girl
You can stack your platinum bag with me, no

Tonight it's goin' digital, digital
Digital, digital, it's goin' digital
Everybody know me when I walk up in the club

Tonight it's goin' digital, digital
Digital, digital, it's goin' digital
Everybody know me when I walk up in the club

When the club do's open up I'm po'in up
Everybody in the club know I got the frozen cup
I can't leave home without lookin' like Magic Don Juan,
yeah

Now everybody know what's goin' on, my pimpin'
strong
Listen everybody in the club is singin' my song
I can't leave alone 'cause all these bitches know that
I'm the one, yeah

Now I got the green on the shoes
Gold Cadillac, ice around my neck
How pimpin' is that? Oh c'mon girl

Let's get it crackin' all night long

Tonight it's goin' digital, digital
Digital, digital, it's goin' digital
Everybody know me when I walk up in the club

Tonight it's goin' digital
Digital, digital, it's goin' digital
Everybody know me when I walk up in the club

It's goin' digital, you's don't wanna hear me though
She lookin' at me like she wanna piece of Nappy Boi
Fallin' on yo' body, hit this and be quiet
'Cause everybody in the club know I start the party

Just washed my shoes, the gator's too clean
Don't mess around and make me have to do the right
thing
Aight, I'm digital and you can come to MySpace
Or just call me when you're down to get away

Tonight it's goin' digital, digital
Digital, digital, it's goin' digital
Everybody know me when I walk up in the club

Tonight it's goin' digital, digital
Digital, digital, it's goin' digital
Everybody know me when I walk up in the club
