(Lil Kim's Verse)

Im on myspace and its type late

We up all night ,havin cybersex

He said he wanna explore me like tha internet
its like a orgasm everytime he send a text
He wanna download
He likes to download
lil kim songs and put em on his ringtone
he even got my screen saver on his iphone
i get more hits than a t-inzone
we goin back and forth

he a thug so i hit em' on his gmail
his sense of humor got me writin L-O-L
i sent pictures of myself straight to tha cell
(chorus)

(lil kim)

He been lookin at my sexy pics
said he diggin my sexy hips
he wanna kiss my sexy lips
and download me on his floppy disk
lil kim is the only one on his mind
he wanna come thru and put me on his hard drive
three o'clock in the morning ,we be online
others send friend requests
but they get denied
he type i miss you
i type back to let him know the feelings mutual
its just myspace love
but its beautiful
he love to watch my videos on youtube
hey ,its like everytime i log on
i get so turned on
computer love playin in tha back
(thas ma song)
the only one that have me up all night long
feel like a fantasy
chemistry is so strong

(chorus)

(T Pain's Verse)

(chorus)
