[T-Pain]

Woke up this morning with a headache
And the coldest sweat I've ever felt in my life
My mind is empty, but my bed ain't
Oh, what did I do last night?
So I say, "Doctor, doctor, take a look
There's something in my heart that's wrong
I got feelings for this girl that I just met
I mean I haven't known her too long"
Then he said, "Brother, brother, calm down for me
'Cause there ain't nothing wrong with you"
He said I'm just going through sweet love hangover
And it sure ain't no cure for sweet love hangover

[Skye]

Got out of the bed with my mind blank
Asking who is he and where the hell am I
My body's naked but my heart ain't
Oh, what did I dream last night
So I say, "Doctor, doctor, take a look
There's something in my heart that's wrong
See, I got feelings for this guy that I just met
I mean I haven't known him too long"
He said, "Sister, sister, calm down, honey
'Cause there ain't nothing wrong with you"
He said I'm just going through sweet love hangover
No it sure ain't no cure for sweet love hangover
