its not you  
oh youu  
its not youu  
oh oh

i know ill be  
all up in these clubs  
playing with these girls  
traveling around the world  
i know ill be  
messing with your feeling  
money to the ceilings  
it falls down to the floor  
i know ill be  
this club this club is pumping like a champ  
an music got me ham  
im canceling france  
i know ill be  
messing myself  
an thats all that i do

so if we break up  
i can tell you its not you  
its not you its not you  
not you its me  
i know i've been tripping  
i need you to listening  
its not you its not you  
its not you its me  
i know im messing up  
i cant stay out all in this club

i know we be  
kissing all in public  
an girl i love it  
an cant get enough of it  
but girl lately  
you been talking down  
keep me with a frown  
i cant keep you around  
i know i be  
this club this club is pumping like a pro

girl you already know  
you seen this all before  
i know i be  
messaging myself  
you cant tell me what to do

so if we break up  
i can tell you its not you  
its not you its not you  
not you its me  
i know i've been tripping  
i need you to listening  
its not you its not you  
its not you its me  
i know im messing up  
i cant stay out all in this club  
its not you its not you

(Pitbull)

they scared by her grin  
she here i dip  
i hit  
no text no twitter  
that girl so bad  
that thing so stiff  
anything you made i can killa  
even all the girls wanna hit her  
so you know ima take one with her  
more booty party like a roller  
for show flood the club like new orleans  
she hit she hit her ass so fat  
an i cant touchdown for doggin

its not you its me im sorry

so if we break up  
i can tell you its not you  
its not you its not you  
not you its me  
i know i've been tripping  
i need you to listening  
its not you its not you  
its not you its me  
i know im messing up  
i cant stay out all in this club  
its not you its not you
