Yeah, oh, oh, oh
Yeah, oh, oh, oh
You did me wrong, but I'm stronger now
It won't be long, it won't be long
Before I'm on top of you again
And this time you can't hurt me
Cause I know you just desert me
You're just that kind of person,
And I won't let you convert me
I belong to a better girl
She ain't home, so come rock my world
Cause I miss the way we did it, and I know you do to
So fade that old flame of dizzy, let's do what you do,
because

Chorus:
... when you hit me
I don't think you realize
Girl, are you listening?
I just gotta get back in my zone,
Get alone, take you slow
I just can't let you, can't let you go!
Still feel your lips when I'm kissing
All them other girls got me wishing
We were slow dancing in our zone,
All alone, take you slow
Can't let you, can't let you goooo!
Oh, oh, oh
Do you remember this?
Can't let you go!
Oh, oh, oh, do you remember?
I just can't let you go!

Baby, the way you're looking got me falling out the stars
I ain't no player, but for you I play the part
Serenading for you lady, and we're singing
Tonight you gonna love me like you did before
Am I crazy, for calling out your name
I'll never be the same, why you do me that away
Can't you see you're killing me?

Chorus: (x2)
... when you hit me
I don't think you realize
Girl, are you listening?
I just gotta get back in my zone,
Get alone, take you slow
I just can't let you, can't let you go!
Still feel your lips when I'm kissing
All them other girls got me wishing
We were slow dancing in our zone,
All alone, take you slow
Can't let you, can't let you goooo!
Oh, oh, oh
Do you remember this?
Can't let you go!
Oh, oh, oh, do you remember?
I just can't let you go!
