Yeah, it's two for one tonight
Fellas grab a lady, ladies get that money
From the VIP to the main stage

Yeah, I never seen a shawty do that on the bong
I reach in my pocket full of two stacks, get out all
If you never done this, don't you feel dumb with it
Shawty come over to you and start gettin' it on
Then the song is almost done, that's so wrong
So I made a long lap dance song

I need a two for one or somethin'
Otherwise I need my own lap dance song
I only been in here for two hours
And all my dollar bills is gone
For a lap dance song

I need more than a minute with you
Before I spend a minute with you
Girl c'mon, don't do me wrong
You know what's goin' on
Yeah, this is the long lap dance song

Yeah, it's two for one tonight
Fellas grab a lady and ladies get that money
From the VIP to the main stage

Shawty came down from the main stage to the floor
They were waitin' to the VIP, got it all
Baby was so ready, hot and so heavy
She got on top of me until the [Incomprehensible]
Then the song was over, that's so wrong
So I made a long lap dance song

I need a two for one or somethin'
Otherwise I need my own lap dance song
I only been in here for two hours
And all my dollar bills is gone
For a lap dance song

I need more than a minute with you
Before I spend a minute with you

Girl c'mon, don't do me wrong
You know what's goin' on
Yeah, this is the long lap dance song

Yeah, it's two for one tonight
Fellas grab a lady, ladies get that money
From the VIP to the main stage

Girl, where you goin'?
You can't leave me here like this
Girl, don't you know we're nowhere near done?
[Incomprehensible]

Girl, you can't leave me, please believe me
You gotta stay over here and keep gettin' it on
Till the song is over
I know that this is the long lap dance song

I need a two for one or somethin'
Otherwise I need my own lap dance song
I only been in here for two hours
And all my dollar bills is gone
For a lap dance song

I need more than a minute with you
Before I spend a minute with you
Girl c'mon, don't do me wrong
You know what's goin' on
