Take a sip of this, drink that and don't it feel good
baby?
Take a hit of this, take that and don't it feel good baby?
Take a sip of this, drink that, I'ma put you on my hood
baby
Take a sip of this, drink that

Hey girl, how you doin'?
Can I get a minute of your time to spit a line or two?
Say girl, I know you ain't feelin' me, I promise that you
take
A sip of this you gon' be right here hearin' me

You givin' me, a reason to come back to the club
Now I'm feelin' like, you feelin' like, showin' me love
And I'm here to get your rhythm right, girl go and
gather your crew
'Cuz me and my niggas make you do what to do

And I see it in your eyes baby and I
I know I took you by surprise baby, oh yeah
This what you do, go and gather your crew
'Cuz me and my niggas make you do what to do

Now baby girl I ain't tryin' to get you drunk
I'm just tryin' to get you, tipsy enough
And I know that you wouldn't do what you do
Unless you get, tipsy enough

In order for me to get you home
In the back of my b'room I need you, tipsy enough
Now I know that you wouldn't be the freak
That you are unless you're, tipsy enough

Hey girl, tell me what's crackin'?
I see you watchin wonderin' if I'ma come and talk to
you
Say girl, I need for you to listen to me closely girl
Me and you got a chemistry so let's just keep it movin'

You givin' me a reason not to leave out this club
And I'm feelin' like half the gonna give me some love

And I'm here to change your perspective baby
Girl go and gather your crew
'Cuz me and my niggas make you do what to do

And I see it in your eyes baby and I
I know I took you by surprise baby, oh yeah
Here's what you do, go and gather your crew
'Cuz me and my niggas make you do what to do

Now baby girl I ain't tryin' to get you drunk
I'm just tryin' to get you, tipsy enough
'Cuz I know that you wouldn't do what you do
Unless you get, tipsy enough

In order for me to get you home
In the back of my b'room I need you, tipsy enough

That you are unless you're, tipsy enough
