Never took off times to tell you lies
Somehow it always ends up making you cry
Oh the truth hurts
Even if you don't wanna know it
The truth hurts
... gonna blow it
Cause we fall now... times
I saw the... don't even match at all
Only thing I know so fun
But I bet you are
All you ever did is tell me lies

Funny I'll catch to spend up is mine

Truth hurts especially when you are caught red handed
You can draw... goes away you planned
Cause we felt in love at the wrong time
... don't even match at all
I saw the... don't even match at all
Only thing I know so fun
But I bet you are
You never took out time to tell me why wanna go
I remember when we said we take this ride
