[Verse]

Chinchilla to the floo
Ciggarella fulla dro
White Benz double doors
I can change color though
Blue Ferrari red Bent
Black truck on 24's
Several cheverlots on 20 inches maybe more
Used to wish for better days
Now I wish for never more
I can go bout anything
Stick my dick in every hoe
Grand hustling on everything
Kids see in every store
Selling everything from rubber bands to leather coats
Swear to god I'd never change
Other niggas never no
T.I.P. ain't never been a lame jigalow since '84
Blessed wit astonishing ability to pull a hoe
Fuck her so good make her think this dick was full of
mo
Pussy so good but I love the way she suck it slow
Her motto you don't swallow what you sucking for?
My motto you ain't balling what you hustling for?
These vvs's let off such a glow to let the busters no

[Chorus]

Hey hey

[Verse]

Now shawty stall if you want to I ball when I want to
The fall threw and shut down the mall if I want to
I could make your girlfriend choose but I want you
Why you bother me what you will or you wont do?
Listen shorty i'm a grown man and you grown to
You can live wit me I don't gotta telephone you
All i'm thinking 'bout is me laying on you
Or vise versa wit a lotta ass to hold on to
I got something for that ass to bounce on to
Your missing a chance of a life time why don't you
Hop off in the droptop, ride through the city lights
Take you where I kick it let you see what pimping living

like
Pop one of these see what you feeling like
Taking off your clothes want to no what it's drilly right
Residental suite at the very end of the night
Treat you like a freak and give ya what was missing in
your life

[Chorus]

Tell the bitch to bounce like this
