Which galaxy you are from
tell me how they bang a gong

your world
I'm in your world
(2x)

shadows in the alley at midnight
middle-class bob with the bad teeth

the world, I'm in the world
my world, I'm in my world

my man's like a angel with clipped wings
I can hear every dog when he sheds his sweetheart

the world, I mean my world
my world, I mean, the world

do they have sickness in society
to they have democratic entity?

your world, I'm in your world
your world, I'm in your world
(4X)
