O Lean love
All you give to me
Is lean love
I'm like a beggar in the sand
With the sky in his hand
And I'm blue

O black day
All you give to me
Are your wild ways
Well you're the love of my life
And then you gorge me with a knife
And I'm blue, that's untrue

Lightening
All the heavy world
Is frightening
I'm talking to you
I'm like a child in the sand
On the beach of the land of you
And i'm blue
Oh I'm your friend
Dig your head
