MAN AND MACHINE

When I'm driving in my car, I don't care about any thing  
When I'm speeding in my car, I don't care about  
anyone

Man and machine, machine and man  
We're always together they can't understand  
Give anything for her velvet seats

Do anything just to hear her squeal  
Man and machine, machine and man  
We're always together they can't understand

My foot's on the pedal, such a crazy thing  
I'm never gonna stop loving this machine  
Wheels are rolling with a rockabye motion

And I love my car  
Sirens screaming throught the city speeding  
But I'll never stop

Go through girls like I do through fines  
But I'll never leave my car

My car and me such a crazy thing and I'm...  
When I'm driving in my car, I don't care about any thing  
When I'm speeding in my car, I don't care about  
anyone

Judge on the bench made clear his demands  
We're gonna have to have your license young man  
Listen judge, don't you have a heart

I ain't a criminal, just in love with a car  
Now I'm back on the streets behind the wheel  
The papaer's gone but I still got the feel  
A life of danger, life of speed life of trouble for my  
Car and me.
